

mdtAbstractPort

```
classDiagram
    mdtPortPosix --|> mdtAbstractPort
```

A UML class diagram illustrating inheritance. The class `mdtAbstractPort` is the superclass, represented by a white rectangle with a black border. The class `mdtPortPosix` is the subclass, represented by a gray rectangle with a black border. A blue arrow points from the bottom of the `mdtPortPosix` box to the bottom of the `mdtAbstractPort` box, indicating that `mdtPortPosix` inherits from `mdtAbstractPort`.
