

src/mdttools/mdttesttool
/mdtcablelist/mdtCIPathGraphDialog.h

```
graph BT; A["src/mdttools/mdttesttool /mdtcablelist/mdtCIPathGraphDialog.h"] --> B["src/mdttools/mdttesttool /mdtcablelist/mdtCIPathGraphDialog.cpp"]; A --> C["src/mdttools/mdttesttool /mdtcablelist/mdtCIUnitEditor.cpp"];
```

The diagram illustrates a header file inclusion relationship. At the top is a grey box representing the header file: `src/mdttools/mdttesttool /mdtcablelist/mdtCIPathGraphDialog.h`. Below it are two white boxes representing source files. A blue arrow points from the left source file box to the header box, and another blue arrow points from the right source file box to the header box, indicating that both source files include this header.
